

MEDICATION REFILL POLICY

Patients may request medication refills through:

- Telehealth consultations
- Patient support portal
- Direct physician follow-up appointments

Medication refills are allowed only for medications previously prescribed by authorized healthcare providers.

Controlled substances require in-person evaluation before renewal.

Patients requesting refills should provide:

- Prescription details
- Pharmacy information
- Current symptoms if applicable

Refill requests are generally processed within 48 hours.

Healthcare providers may deny refill requests if:

- Follow-up evaluation is overdue
- Medication misuse is suspected
- Updated medical examination is required

Emergency refill requests are reviewed on a case-by-case basis.

Patients should not discontinue prescribed medication without consulting a healthcare provider.
